ABOUT OUR COMPANY

Our Story

Revolution By Click Ltd is a trusted intermediary specializing in structured financial solutions, securities lending, and secure transaction facilitation.

With a strong foundation in compliance and transparency, we bridge clients with top-tier financial institutions to deliver reliable, and secure access to financial instruments.

Our clearing operations focus on creating direct links between clients and suppliers, enabling the execution of complex transactions such as **Bank Guarantees (BG)**, **Letters of Credit (LC)**, **Standby Letters of Credit (SBLC)**, **Proof of Funds (POF)**, **Blocked Funds** & **Auction Surety**.

These transactions are conducted exclusively with leading international banks including **Barclays**, **Santander**, **Deutsche Bank**, and **HSBC**, ensuring both trust, and credibility.

To safeguard our clients' interests, all transactions are managed through a licensed and verified **Escrow Agent** (lawyer, notary, or both), ensuring transparency, legal compliance, and fund security. We also facilitate the creation of **Euroclear Sub-Accounts** in Brussels, where Government bonds are deposited in compliance with international anti-money laundering (AML), and fund traceability regulations.

Our services are backed by partnerships with global clearing institutions such as **Euroclear** & **Clearstream**, the world's largest, and most trusted International Central Securities Depositories.

Through these collaborations, we guarantee seamless settlement, custody, and monetization of securities across multiple jurisdictions.

At Revolution By Click Ltd, we are not lenders, but independent intermediaries, who work exclusively with licensed financial entities, and incorporated companies.

Our role is to provide access, structure, and compliance for high-value financial transactions, with a commitment to integrity, efficiency, and discretion.
